## **FIRST FINANCIAL HOLDINGS, INC. REPORTS FOURTH QUARTER AND FISCAL YEAR RESULTS**

Charleston, South Carolina (October 23, 2007) -- First Financial Holdings, Inc. ("Company") (NASDAQ GSM: FFCH) today reported net income for its fourth quarter and fiscal year ended September 30, 2007. Net income for the year ended September 30, 2007 decreased to \$25.1 million from \$27.6 million for the year ended September 30, 2006. Diluted earnings per share were \$2.07, a decrease of 8.8% from diluted earnings per share of \$2.27 during fiscal 2006. Net income for the fourth quarter of fiscal 2007 totaled \$5.2 million, or \$0.44 per diluted share, compared with net income of \$6.9 million, or \$0.57 per diluted share, earned in the fourth quarter of fiscal 2006. Previously announced and included in the fourth quarter's results was a materially higher effective tax rate of 44.7% as a result of the passage of state tax legislation which was retroactive to January 1, 2007, as discussed in more detail below.

The net interest margin was 3.31% for the quarter ended September 30, 2007 compared to a net interest margin of 3.37% for the quarter ended September 30, 2006. Compared with the most recent quarter, the net interest margin decreased by nine basis points from a net interest margin of 3.40% for the quarter ended June 30, 2007. For the fiscal year ended September 30, 2007 the net interest margin increased by one basis point to 3.36% compared with a net interest margin of 3.35% for the twelve months ended September 30, 2006. President and Chief Executive Officer A. Thomas Hood commented, "In light of the continuation of challenges relating to the current interest rate environment, my first comments will focus on the net interest margin compression. The two major factors contributing to this margin compression during the fourth quarter of fiscal 2007 include a decline in the average balance of personal and business demand accounts as our customers shifted funds to higher yielding money market and certificate of deposit accounts; and the maturity of several long-term Federal Home Loan Bank advances which were replaced by advances at the current higher interest rates. We anticipate that this compression will be mitigated in future quarters as a result of the recent Federal Reserve decrease in its Federal Funds target by 50 basis points and as our loan and investment portfolios rebalance and reprice. It should be noted that despite the margin compression, net interest income increased \$44 thousand to \$20.7 million for the quarter ended September 30, 2007 compared to the same quarter in fiscal 2006."

Non-interest income totaled \$13.7 million for the fourth quarter of fiscal 2007, a slight increase from \$13.3 million for the quarter ended September 30, 2006. This increase is primarily attributable to increases in deposit account fees and in bank card revenues. Total revenues, defined as net interest income plus total other income, excluding gains on sales of investments and gains on disposition of assets, increased to \$34.4 million, for the quarter ended September 30, 2007, an increase of \$491 thousand or 1.4% from \$33.9 million during the comparable quarter ended September 30, 2006.

Total non-interest expenses increased by \$1.3 million, or 5.7%, to \$23.4 million for the quarter ended September 30, 2007 compared to \$22.1 million for the quarter ended September 30, 2006. Occupancy, depreciation and amortization costs increased by \$494 thousand to \$3.5 million for the quarter ended September 30, 2007 from \$3.0 million for the quarter ended September 30, 2006. The

- more -

increase in the current quarter is attributable principally to property renovations, branch expansion and technology costs associated with several efficiency initiatives. An adjustment was made to our management incentive accrual during the fourth quarter since targeted goals were not achieved for the fiscal year ended September 30, 2007, thereby reducing growth in compensation costs in the current quarter.

During fiscal 2007 First Federal expanded into two additional in-store offices and one of these offices is our first in-store financial center not located in a Wal-Mart store. We also relocated a full service office in the Summerville market as well as building a new regional headquarters in Myrtle Beach. "We anticipate additional in-store expansion and diversification during fiscal 2008." Hood commented.

"On August 31, 2007, we announced the anticipated impact of recent state tax legislation that was signed into law on July 31, 2007. The legislation amended the corporate tax law affecting the treatment of dividends paid by Real Estate Investment Trusts (REITs). As a result of the enactment of this legislation, the Company recorded an additional tax provision of \$931 thousand net of the federal tax benefit in the fourth quarter, thereby reducing diluted earnings per share by \$.08 for the quarter and year ended September 30, 2007. As we mentioned in the press release announcing this legislation, we will continue to review our corporate tax structure to attempt to mitigate any further impact to our current and future tax positions and hopefully be able to report a lower effective tax rate in fiscal 2008 ." Hood noted.

The Company's reserve coverage of non-performing loans was 247.6% at September 30, 2007 compared to 389.9% at September 30, 2006 and 259.4% at June 30, 2007. Annualized loan net charge-offs as a percentage of net loans was 0.27% for the quarter ended September 30, 2007 compared with 0.18% for the comparable quarter a year ago and 0.16% for the quarter ended June 30, 2007. The provision for loan losses increased to \$1.6 million during the quarter ended September 30, 2007 compared with \$1.1 million during the quarter ended September 30, 2006 and \$1.2 million during the quarter ended June 30, 2007. Problem assets, which include problem loans as well as properties acquired, as a percentage of total assets was 0.28% at September 30, 2007 compared with 0.21% at September 30, 2006 and 0.28% at June 30, 2007. Hood commented, "Certain credit quality indicators such as non-performing assets to assets were very consistent with recent quarters while charge-offs did show higher levels in our fourth quarter. Our reserve coverage to problem loans remains very strong. As you would expect, we are very closely monitoring conditions in all of our markets and are continuing to see slowness in the housing market that has resulted in an increased inventory of residential units and fewer new housing starts."

Hood continued, "We identified several significant goals for fiscal 2007 and we fell short of our goal of 6-8% growth in diluted earnings per share for the year."

"As reflected in the results for the quarter and year ended September 30, 2007, we did experience moderate growth of our insurance businesses. Revenues increased 6.0% for fiscal 2007 compared to fiscal 2006. The Company's total revenues during fiscal 2007, which includes net interest income and total other income, increased by 3% compared to a goal of 5%." Hood noted.

Hood commented, "We continue to be very focused on expanding distribution channels for all of our customers. We made additional and very significant improvements to our internet banking platform. We have increased our in-store banking program with two new stores opened in fiscal 2007 and have commitments to open three additional in-store offices in fiscal 2008. In late fiscal 2006, we expanded our deposit gathering initiatives with a dedicated sales staff to serve the nonprofit business sector and we are very excited with our growth and success thus far."

"We continue to be dedicated to finding the best financial solutions for our customers and the best results for our shareholders. While fiscal 2007 was full of challenges, we are encouraged as we begin fiscal 2008 by the recent actions of the Federal Reserve, which improves our operating environment. Although the housing outlook remains challenging, other sectors of our business will hopefully strengthen.

While recognizing that the national credit cycle has dramatically changed this year, we remain confident in our credit quality and how we have positioned the Company for the future." Hood concluded.

As of September 30, 2007, total assets of First Financial were \$2.7 billion, loans receivable totaled \$2.1 billion and deposits were \$1.9 billion. Stockholders' equity was \$185.7 million and book value per common share totaled \$15.96 at September 30, 2007.

First Financial is the holding company for First Federal Savings and Loan Association of Charleston, which operates 55 offices located in the Charleston metropolitan area, Horry, Georgetown, Florence and Beaufort counties in South Carolina and Brunswick County in coastal North Carolina. The Company also provides insurance, brokerage and trust services through First Southeast Insurance Services, The Kimbrell Insurance Group, First Southeast Investor Services and First Southeast Fiduciary and Trust Services.

NOTE: A. Thomas Hood, President and CEO of the Company, and R. Wayne Hall, Executive Vice President and CFO, will discuss these results in a conference call at 2:00 PM (ET), October 23, 2007. The call can be accessed via a webcast available on First Financial's website at [www.firstfinancialholdings.com](http://www.firstfinancialholdings.com).

#### Forward Looking Statements

*Certain matters in this news release constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements relate to, among others, expectations of the business environment in which the Company operates, projections of future performance, including operating efficiencies, perceived opportunities in the market, potential future credit experience, and statements regarding the Company's mission and vision. These forward-looking statements are based upon current management expectations, and may, therefore, involve risks and uncertainties. Management's ability to predict results or the effect of future plans or strategies is inherently uncertain. The Company's actual results, performance or achievements may differ materially from those suggested, expressed or implied by forward-looking statements due to a wide range of factors including, but not limited to, the general business environment, general economic conditions nationally and in the State of South Carolina, interest rates, the South Carolina real estate market, the demand for mortgage loans, competitive conditions between banks and non-bank financial services providers, regulatory changes and other risks detailed in the Company's reports filed with the Securities and Exchange Commission, including the Annual Report on Form 10-K for the fiscal year ended September 30, 2006. Accordingly, these factors should be considered in evaluating the forward-looking statements, and undue reliance should not be placed on these statements.*

*Such forward-looking statements may include projections. Such projections were not prepared in accordance with published guidelines of the American Institute of Certified Public Accountants or the SEC regarding projections and forecasts nor have such projections been audited, examined or otherwise reviewed by independent auditors of the Company. In addition, such projections are based upon many estimates and inherently subject to significant economic and competitive uncertainties and contingencies, many of which are beyond the control of management of the Company. Accordingly, actual results may be materially higher or lower than those projected. The inclusion of such projections herein should not be regarded as a representation by the Company that the projections will prove to be correct. The Company does not undertake to update any forward-looking statement that may be made on behalf of the Company.*
